How to make your club more inclusive!

Being inclusive means welcoming everyone.

Respectful, caring, positive, inclusive clubs ensure that all members have an equal opportunity to participate – at a level they choose.

Sport and recreation clubs are important to local communities and can be the best place to encourage positive contact and cooperation between people from a range of different backgrounds and abilities.

To be more inclusive your club can:

- At a Club Level**
 - Incorporate diversity in your committee/board by encouraging people from a mix of backgrounds, ages and gender to become involved.
 - Communicate with Local Government to ensure members have appropriate physical access to facilities by offering equipment and amenities such as male/female change rooms, ramps (parked) or portable, wide doors and disabled toilets.
 - Provide inclusive training and support for volunteers and staff to ensure all members feel welcome.
- At a Committee Level**
 - Promote a welcoming attitude amongst members and develop plans, policies and procedures to support inclusion.
 - Consider members' needs when planning and delivering training sessions.
 - Promote local public transport links for players to attend training and games.
- At a Member Level**
 - Encourage your members/volunteers to support inclusive practices and promote a welcoming environment for everyone.

• Display posters/images on your website/social media pages and clubrooms that reflect the diversity of your club.

• Display posters and images that promote respect, integrity and/or leadership.

• Serve food and/or play music at social events that reflect members' cultural backgrounds, e.g. halal food.

• Offer welcoming messages in different languages reflecting membership of the club.

• Build good links with local community organisations that are connected with the groups you are aiming to work with e.g. youth organisations, multicultural agencies and disability service providers.

• Keep up-to-date with changes in your local community, such as changes to local population and demographics, barriers to participation and what programs/initiatives exist in your area.

If you would like more information about how to be inclusive, see the *How Inclusive is Your Club?* checklist available on the DSR website <http://www.dsr.wa.gov.au/5877> or contact DSR's Inclusion Officers on 9462 6700.

Case study – Community Participation funding

Hook in2 Hockey Kwinana Tigers Hockey Club

Background

After noticing an increase in the number of Culturally and Linguistically Diverse (CaLD) people residing in the area, the Kwinana Tigers wanted to become more inclusive and encourage their ongoing participation through club membership.

What we wanted to achieve

CaLD participation

Increase hockey participation in the Kwinana community.

Skills and mentoring

Provide hockey skills and mentoring workshops particularly engaging people from CaLD backgrounds.

Active lifestyles

Promote the benefits of a healthy, active lifestyle for the entire family.

What happened

6 weeks

A fun introductory experience to give hockey a go.

Elite players

Hockey specialists and elite players helped conduct the sessions.

Experienced coaches

Experienced coaches supported club volunteers to foster development and participation.

Partnerships

Engaged local community groups to promote and support.

KidSport was successfully used to encourage club membership.

What we learnt

Spending the necessary time to research, plan and develop the program increases the overall success.

A key to success was finding the right resources (e.g. coaches, umpires, funding etc.), understanding the best places to advertise and liaising with other community groups as partners in the program.
